

See, Make, Do

Budding da Vincis and Michelangelos love designing their own buttons and t-shirts at Make (page 24) on Granville Island. Staff can personalize lots of other items, too: **printing meaningful text onto a pillow, transferring a family photo onto an apron, laser engraving a favourite quotation onto a leather journal.** The colourful store definitely gets creative juices flowing, with its assortment of unique wares running the gamut from ninja-shaped cookie cutters to Scrabble-tile jewellery to stylish but sturdy bags made out of old bicycle tires. Make sure to check out the fun section devoted to toques—practical at this chilly time of year.—*Sheri Radford*
