

## Matrimonial Marathon

**MAY 6** How do you know a couple is in it for the long run? When they share a passion for running—and get married in the middle of a race. At last year's BMO Vancouver Marathon (page 93), Anthony Johnson and James Makokis paused at kilometre 32 to tie the knot against the picture-perfect backdrop of English Bay. On May 6, look for the happy couple as they celebrate their anniversary by doing the marathon again, this time with their moms. It seems the course of true love sometimes *does* run smooth.

## Funny Fellow

**MAY 24-26** Vancouver's greatest gift to the world might just be funny folks such as Colin Mochrie, Seth Rogen and Ryan Reynolds. Mochrie spent years honing his craft with the Vancouver TheatreSports (VTS) and Second City improv troupes, then several seasons delivering the laughs on *Whose Line Is It Anyway?* This month, Colin Mochrie (page 94) returns to his old stomping ground for five side-splitting shows featuring members of the current VTS ensemble. Belly laughs? Guaranteed.

## Movie Magic

**MAY 19-JAN 6** If you've ever wondered how characters such as Buzz Lightyear and Elastigirl were brought to life, then this is the exhibit for you. *The Science Behind Pixar* explores the science, technology and math that go into making Pixar's computer-animated films. Learn about concept art, lighting, modelling, rendering and more, at Science World (page 97). "To infinity and beyond!"
