

Fall Favourites

As the days get shorter and the nights grow longer, the minimalist beauty regime of summer shifts into the bolder, more polished looks of autumn. **Philosophy's No Reason to Hide** is an all-in-one transforming serum that treats everything from acne marks, dark spots, and redness to blotchiness, rough texture, and darkened and enlarged pores. **NARS's Audacious Lipsticks**, launched for the company's 20th anniversary, deliver intense colour while locking in moisture and making lips look fuller; François Nars named the 30 pigment-rich shades after women who have influenced him throughout his career, including Raquel, Greta, Grace and Brigitte. **Lise Watier's Féline Eyeshadow Quartet** features four ultra-pigmented colours (champagne, luminous taupe, lace pink, coppery brown) in a cream powder formula that delivers impressive staying power, keeping eyes looking enticingly exotic until well into the evening. In case of a beauty mishap, the **Prestige Makeup Eraser Pen** saves the day, easily correcting eyeliner errors and mascara mistakes. Find the eyeshadow and makeup eraser pen at London Drugs (page 22), and the lipstick and transforming serum at Sephora (page 20) or The Bay (page 22).—*Sheri Radford*
