

STAR WARS SKINCARE

May glowing skin be with you. During the holiday season, men can harness their inner Jedi or turn to the dark side with the Star Wars Limited-Edition Men's Skincare Set from The Face Shop (page 35). This treatment trio includes emulsion, toner and cleansing foam that work together to cleanse, smooth and hydrate challenging skin of all types. So whether you're a Skywalker guy or you lean toward Darth Vader and the stormtroopers, you can triumph in your grooming battles.—**SPENCER VAN VLOTEN**

CUTE & CLEVER

Kikkerland is the master at turning utilitarian objects into ingenious gadgets—think a bamboo cutting board shaped like a guitar and an umbrella that looks like a samurai sword (both available at Make, page 24). And who can resist their menagerie of adorable tweezers? Choose from the elephant, giraffe, parrot or zebra. Each one is guaranteed to make plucking eyebrows seem like less of a chore. Find them on a shopping safari to Welk's General Store (page 25).

Are you wild about someone? Show your affection with a personalized body butter from The Body Shop (page 35). For a limited time, select from a panda, tiger, deer or flamingo design and add your beloved's name. These cute gifts are available at just three Body Shop locations in Canada, including the one in Richmond Centre (page 18).—**SHERI RADFORD**
