

## Kids Market

Adults love Granville Island (page E2) for the Public Market's fresh produce and meats, for the artists' studios filled with quirky art, and for the restaurants and theatres. Kids, however, love Granville Island for the Kids Market (page 87), a **two-story burst of colour and noise** overflowing with toys, games, costumes, books, candy and clothes—everything a tiny tot could desire.

## Vancouver International Children's Festival
