Van Cleef & Arpels

Five new pieces add some springtime sparkle to Van Cleef & Arpels' Frivole floral collection. The centrepiece is a ring that combines three white-gold flowers encrusted with diamonds and five mirror-polished rose-gold flowers, each with a central stone. Other eye-catching creations in this jewellery bouquet include a two-flower Between the Finger ring in rose gold and an asymmetrical seven-flower bracelet in white gold, which glitters with almost 300 diamonds.

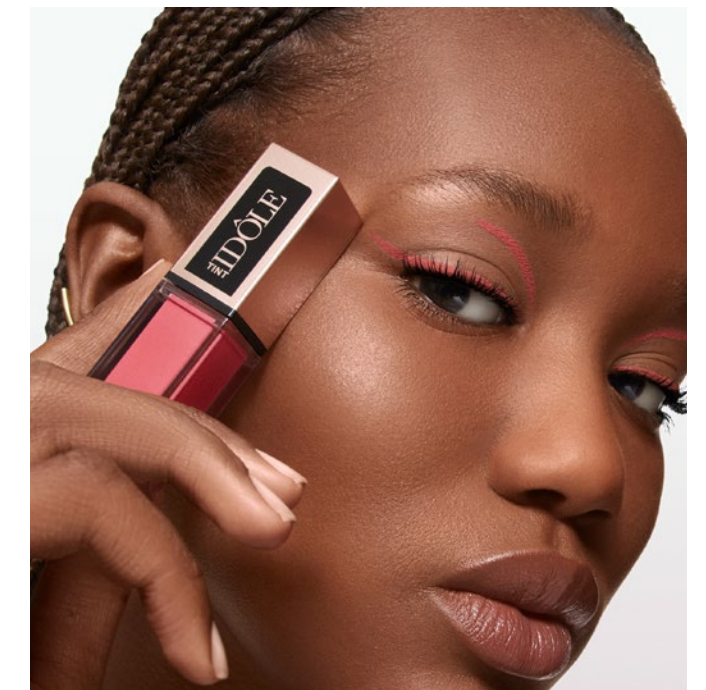

Branca

Branca's new Conic lounge chair delivers a cheerful pop of colour in a cushy and whimsical package. The Portuguese furniture maker is known for pairing traditional craftsmanship with modern digital production tools to produce memorable pieces such as this powder-coated armchair with a moulded-foam shell.

Longines

Longines launched the Conquest collection of self-winding, water-resistant timepieces back in 1954. Now, to mark the iconic model's 70th anniversary, the company has unveiled the Conquest Heritage Central Power Reserve. In the centre of its dial, two discs rotate to indicate the watch's remaining hours of running time.

Lancôme

Streamlining both cosmetics bags and morning beauty routines, the new Idôle Tint Liquid Eye-Blusher from Lancôme cleverly combines four products in one: eyeshadow, eyeliner, blush, and luminous highlighter. Its dual-purpose applicator has a flat side for blending shadow and a thin side for lining with precision.
