Messika

With its strong geometric lines in yellow, white, and pink gold, Messika's new So Move collection was made for those seeking a contemporary twist on classic styles. That bold aesthetic turns necklaces, bracelets, earrings, and rings into statement pieces.

Louis Vuitton

Named after the Paris street where Louis Vuitton opened his first store, the Capucines bag is a modern icon—and the perfect blank canvas for an array of designs by contemporary artists. Contributions from Ewa Juskiewicz (pictured), Liza Lou, Ziping Wang, Tursic & Mille, and Billie Zangewa round out the Artycapucines 2023 collection.

Breguet

Two new additions to the Classique Tourbillon 3358 collection combine the precision Breguet is known for with designs intended to dazzle. The white-gold model has a striking mother-of-pearl dial in midnight blue, while the dial of the rose-gold version sparkles with 281 diamonds.

Smeg x Dolce&Gabbana

Smeg teamed up with Dolce&Gabbana on a line of small appliances, and the results are just as eye-catching as you'd expect. Kettles, toasters, juicers, blenders, and stand mixers in the Sicily Is My Love collection boast '50s silhouettes and vivid colours evocative of Italy.
